

Phase 2 Operating Plan

- During Phase 2, the pool will be open for lap swimming and water exercise only, until those restrictions are lifted. Recreational or play swimming is not allowed.
- Each exercise area will be limited to a maximum of 3 swimmers per lane/exercise at one time from the same household membership.
- Members may not enter the facility if they do not meet the State's symptom guidelines which will be posted prominently at the front entrance. Further, members will be asked upon making their reservation and again at check-in if they have any of the following symptoms: fever, chills, cough, shortness of breath, or muscle aches unrelated to exercise.
- Entry to the pool will occur through the guard house. Exits will occur through the gate.
- Members will be required to wear face coverings when entering and exiting the facility. Face coverings are also required any time members are utilizing indoor facilities. While on the grounds, you should continue to wear a face mask when you cannot maintain a proper social distance of at least 10' while on deck outside of your table group. Face coverings should not be worn in the pool.
- No guests will be allowed during Phase 2
- Additional clean chairs will be stacked around the perimeter of the deck. If your household needs additional seating chairs may be removed from a stack, but **do not return** the chair when you are done. You must continue to maintain at least 10' distance from nearby table groups. Chairs will be disinfected and returned to the stack before the start of the next session.
- Each membership will be allowed to reserve a maximum of 2 blocks per week. The reserved lap lane/exercise area will be numbered and correspond with a seating area. Table groupings will be set no less than 10' apart.
- Reservation blocks will be 120 minutes in length starting at the top of each hour. At the end of the first 90 minutes members will vacate the pool deck and 30 minutes will be used to clean before the next reservation block enters.
- Tables # 9, 10, 11 and 12 may be reserved for "deck use only". Members who would like to sunbathe or read a book for example and not use the swimming

areas are strongly encouraged to reserve these tables. Members reserving these tables will be able to utilize the diving area only.

- While in the water or on deck not in an assigned seating area, members need to maintain at least 10' distance from others and wear a face covering. Sharing of seating areas by multiple memberships is not allowed.
- The grills, water fountain and pavilion will not be accessible to members during Phase 2. Members may bring their own food and drink- there will be no deliveries allowed. Please throw your trash away when leaving. Be mindful that at least 10' of distance needs to be maintained between table groups.
- The dive well will be open for diving. Distancing markers will be used to ensure proper distancing at the board and line.
- Toys (including, but not limited to balls, squirt guns, dive stick, etc) are not allowed. Personal, single use equipment such as pool noodles and kickboards are allowed if used for exercise purposes only.
- A Lost and Found will not be maintained. Any personal items left behind will be discarded.
- If you use the pool and later test positive for Covid-19, you must inform the Board of Directors and the pool management immediately.
- Policies and procedures subject to change. This plan also relies on individual members to act responsibly, adhere to guidelines and rules and to stay at home if they exhibit Covid-19 symptoms. RVSTC members that are immunocompromised or in high risk categories should follow the "safer at home" guidance. The RVSTC board and staff reserve the right to refuse entry to any member exhibiting symptoms and to eject any member not adhering to safety protocols.
